

Project Development Phase

Model Performance Test

Date	02 October 2026
TeamID	SWTID-2026-2645
Project Name	Auto-Ticket Classification using Flow Designer
Maximum Marks	

Model Performance Testing:

Power BI model performance testing for the Auto-Ticket Classification project is recorded in the template below.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	Dataset: ServiceNow incident export (Tickets table) - 500 tickets, 11 columns, raised by students and teachers between 03-Aug-2026 and 30-Sep-2026. Each ticket carries only Caller Name and Short Description from the user; Category and Subcategory were assigned by the Flow Designer keyword rules.
